## **Statement from the Comptroller and Accountant General**

The Fiscal Year 2020/2021 (FY20/21) original budget was carved to support the principles of the government Pro-Poor Agenda for Prosperity and Development (PAPD) while reducing wastage in the Public Sector as well as responding to the COVID-19's impact on health services and absorbing the impact of the global economic downturn. The original Budget FY20/21 was put at US\$570.1m. However, with revenue over performing as a result of expansionary revenue policies by the government of Liberia which lead to an increased economic activities and subsequently to more domestic tax generation, there was a recast of the original budget which totaled US\$625.4m. This recast made provision for \$55.3m of activities required to fund infrastructure development as well as debt repayment. The FY19/20 COVID-19 recast budget revised estimate was US\$518m, thus the FY20/21 recast represents a 17.1% increase. In spite of the recast to increase the resource envelope for the budget year under review, the year-end revenue again exceeded projection. At year end (June 30, 2021), total gross revenue collected amounted to US\$695.16m, thus resulting in an over performance of 10% of recast budget of US\$625.4m.

The Government continues to invest in structures required to increased domestic revenue collection, however in order to fill the gap which was expected to be resulting from the COVID-19 global economic downturn the Government collaborated with Development Partners to identify external resources increasing their contribution from an original projection of US\$132m to the FY20/21 recast projection of US\$134m, of which US\$138.29m was materialized. Fortunately, the risks to domestic revenue did not materialize as severely as anticipated and domestic revenue performance rebounded, allowing for LRA to report domestic revenue collections of US\$532.18m above the projection of US\$468.07m included in the Recast.

Overall expenditure in FY20/21 was US\$638.64m of which US\$295.33m, 45.51%, was expended on salaries, a US\$2.0m decrease from FY19/20 closing expenditure of \$297.34m which can be attributed to the ongoing work to clean and consolidate the Government's civil servant wage bill. Debt expenditures increase in FY20/21 to \$96.8m from US\$54.05m in FY19/20, a sign of the Government's commitment to honor both domestic and international obligations. Funding activities required to deliver on the PAPD as well as provide a robust response to the impact of COVID-19 are reflected in the rest of FY20/21's expenditures detailed within these financial statements.

**NOTES TO THE CONSOLIDATED FUND ACCOUNT**

The numbered notes that follow relate directly to the content of the Consolidated Financial Statements and are numbered accordingly.

## **1. General Information and Accounting Policies**

The Consolidated Financial Statement presented above reflects the cash receipts and payments of the Government of Liberia for the period July 1 to June 30<sup>th</sup>, 2021 on the basis of monies received by, held in or paid out of the Consolidated Fund during the period under review. The Government, through the Office of the Comptroller and Accountant General, operates a centralized treasury function that administers cash expenditures on behalf of all Ministries, Agencies & Public Corporations/Commissions (MACs) during the financial year. The amounts appropriated to line MACs not expended directly by them, but are disbursed on their behalf by the Office of the Comptroller and Accountant General on presentation of appropriate documentation and authorization.

The Annual Consolidated Fund Account is for the Government of Liberia and encompasses the financial transactions of the Consolidated Fund relating to Government MACs. There are constitutionally established and other statutory institutions that receive cash transfers, but whose quarterly accounts are not included. Also, all forms of external assistance provided through the Consolidated Fund (direct budgetary support) have been captured for the financial period July 1 to June 30<sup>th</sup>, 2021.

These are the specific principles, bases, conventions, rules and practices adopted by GoL in preparing and presenting the Consolidated Fund Account. The principal accounting policies adopted in the preparation of the financial statements therein are set out below. These policies have been consistently applied to all years, unless otherwise stated.

### **a) Basis of Preparation**

The Consolidated Fund Account has been prepared in accordance with the requirements of the Amendment and Restatement of the PFM Act of 2009, and complies with the Cash Basis IPSAS 2017. The measurement basis applied is the historical cost, except where otherwise stated in the accounting policies below. The accounting policies adopted have been consistently used throughout.

### **b) Reporting Entity**

The Consolidated Fund Account is for the central GoL and encompasses the financial transactions on the Fund relating to Government MACs.

### **c) Reporting Currency and Translation of Foreign Currencies**

#### ***i. Functional and Presentation (or Reporting) Currency***

The Republic of Liberia operates a dual currency regime comprising the Liberian Dollar (L\$) and the United States Dollar (US\$), both of which are legal tenders. The attendant Financial Regulations to the PFM Act of 2009 state: “The monetary unit of Liberia for all government agency accounting and financial reporting shall be the Liberian Dollar. The United States Dollar may also be used for financial reporting purposes, but the Liberian Dollar is the base currency.”

Hence, for the purpose of the Consolidated Financial Statements being submitted, the United States Dollar is used as the reporting currency, which is permitted under the attendant Financial Regulations to the PFM Act of 2009.

**ii. Translation of Transactions in Foreign Currency**

Foreign currency transactions and transactions in Liberian Dollars are translated into United States Dollars using the exchange rates prevailing at the dates of the transactions. Many services and benefits are provided by the Government to the public, but these do not necessarily give rise to revenue to the Government. Equivalently, payment of tax and other dues do not necessarily result in an entitlement to the taxpayer to receive the equivalent value in services or benefits, because there is no explicit relationship between payment of taxes and other dues, and receipt of goods and services from the Government. Receipts are recognized as follows:

Proceeds from disposal of property, plant and equipment are recognized as non-tax receipt in the period in which they are received.

### **5. FY2020/21 EXPENDITURE**

Total projected expenditure in the approved budget for FY2020/21 is US\$570.1 million which was revised to US\$625.37 million. Figure 2 - FY 20/21 and FY 19/20 Budgets

## 6. Approved Budgeted Expenditure FY20/21

The total revised estimated appropriation for FY20/21 was US\$625.37 million. This corresponds to the total revenue forecast in adherence to the principle of balanced budget and in accordance with the provisions of the PFM Act, 2009, section 2 (C) and its attendant Regulations.

Recurrent expenditure is the amount appropriated to cover the operational expenditures related to the routine functions of the government. In FY20/21, total amount for recurrent expenditure is projected for US\$578.18 million. It is distributed as follows:

**Compensation of Employees:** Total allocation for this category of expenditure is US\$300.63 million, constituting 52% of recurrent expenditure. This is a 1% increase compare to FY19/20 allocation of \$298 million. The increase is as the result of the over performance in revenue.

**Goods & Services:** An aggregate amount of \$124.08 million has been allocated for Goods & Services. This amount accounts for 21.46% of recurrent expenditure. Comparatively, this indicates about 42% increase from the FY19/20 recast appropriation of \$72.20 million given that there was a senatorial bye-election held in 2020 as well the performance of revenue.

**Grants:** Total allocation for Grants is US\$52.20 million, representing 9.03% of total recurrent expenditure. This indicates a 9% decrease from US\$57.53 million approved in FY19/20 recast budget.

**Non-Financial Asset:** The total recurrent allocation for Non-Financial Assets is US\$3.80 million or 0.66% of recurrent expenditure. This category of expenditure will cover the cost of machinery equipment for routine public works such as in- year road maintenance.

**Social Benefits:** Estimated at US\$2.50, this expenditure category constitutes 0.43% of recurrent expenditure.

**Public Debt:** Total debt repayment for FY20/21 is estimated at US\$94.08 million, of which US\$72.5 million is for Domestic Liabilities and US\$21.6 million is for Foreign Liabilities.

**Subsidy:** The amount of US\$0.88 million or 0.15% is the expenditure estimate for subsidy. It will go towards complementing the efforts of the private sector in providing basic social services to the population in the Social Development, Education and Health sectors respectively, as indicated in Figure 3 below.

**Figure 3 - Components of Recurrent Budget Expenditure FY 20/21**

### 7. Public Sector Investment Plan (PSIP) FY20/21 Approved Budget

Public Sector Investment Plan (PSIP) in the approved budget is estimated at US\$58.7 million, representing about 10.3% and the revised at US\$47.2 million or 8% of the total expenditure portfolio. This shows a 36% decrease when compared to the recast appropriation of US\$74.2 million in FY19/20. The main focus of PSIP allocations is on Infrastructure, Transparency and Accountability (mid-term senatorial elections), Health, and Agriculture. These interventions are expected to stimulate the economy and boost domestic resource mobilization while facilitating quality service delivery especially to the underprivileged. Expenditure appropriation of the estimated Roads Fund is provided in the table below:

## 8. Allocations of Budget by Sector

This section discusses trends in the funding of sectors between the FY19/20 COVID-19 Recast Budget and the FY20/21 Approved Budget. It also highlights the main projects funded under each sector and major changes which have happened in the sector to influence the planning of the FY20/21 Budget.

Public Administration sector received the highest appropriation (US\$211.1 million) which is 37.0 percent of total allocation for FY20/21. This reflects a 10.9 percent increase from the FY19/20 COVID-19 recast appropriation of US\$190.4 million. One of the key drivers of the sector's appropriation is on account of Government's commitment to prioritize the servicing of its domestic and foreign liabilities and reclassification of legislative engagement and public accountability project under the public administrative services sector. Government's debt portfolio is projected at US\$92.9 million for the period

Municipal sector has a total allocation of US\$27.6 million, or 4.9 percent of the overall budget. This represents a 140 percent increase when compared to FY19/20 COVID-19 Recast Appropriation of US\$11.5 million. This increase is on account of the US\$10.7 million Social Development Fund (SDF) revenue brought forward of The SDF, County Development Funds (CDFs) and County Service Centers (CSC) are discussed further in a later section. The sector's main priorities are a Disaster Fund to be operated by National Disaster Management Agency, and the Waterside Petty-Trader Relocation.

The appropriation for the Transparency and Accountability Sector for FY20/21 is US\$26.2 million, constituting 4.6 percent of the total envelope. In comparison with FY19/20 recast allocation of US\$21.4 million, this indicates a 22.4 percent increase. The main reason for the increase is the one-off allocation for the senatorial election scheduled for December 2020.

The appropriation for Security and Rule of Law Sector is US\$80.0 million, depicting 14.0 percent of total expenditure and a 3.5 percent increase when compared with the US\$77.3 million FY19/20 COVID Recast budget. This increase can be attributed to the increase in COVID-19 related security costs.

The Health Sector's appropriation in FY20/21 is US\$70.9 million, representing 12.4 percent of the overall budget. When juxtaposed with the FY19/20 recast budget of US\$87.0 million, this shows a 19.1 percent decrease in allocation. This decrease is on account of a one-off COVID-19 response feeding program in FY19/20 recast budget.

Social Development Services Sector: The amount of US\$8.40 million appropriated for this sector reflects a 16.7 percent increase over the US\$7.2 million in the FY19/20 COVID-19 Recast Budget. The key drivers for this increase is the US\$3.6 million funding for SGBV Taskforce with focus on the fight against the alarming rate of rape projects which are to be implemented by Ministry of Gender, Children and Social Protection the allocation of US\$1.0 million for the Beach and Waterways project and construction of the Headquarters of the Albino Society of Liberia.

The Education Sector's total appropriation is US\$79.4 million for FY20/21. This reflects a 11.8 percent increase from the FY19/20 COVID-19 Recast value of US\$71.0 million. Efforts to improve the educational service delivery in an effective and efficient way remain the top focus of the sector.

Allocation in the Energy and Environment Sector for FY20/21 is US\$13.3 million, representing 2.3 percent of the total appropriation. This amount reflects a 16.4 percent decline when compared to FY19/20 appropriation of US\$15.9 million. The decrease is largely attributed to a one-off of COVID-19 interventions in the form of utility (water and electricity) relief for the population. The priority interventions in PSIP envelope for this year are the electrification of three military barracks and maintenance of street and traffic lights.

Agriculture Sector: Comparative analysis of the allocations reflects a 48.8 percent increase between FY20/21's US\$6.4 million allocation and the FY19/20 COVID-19 Recast appropriation of US\$4.3 million. Key focus for this sector is the development of the Agriculture Fund as part of the Liberian Economic Recovery Plan.

The total appropriation in the Infrastructure sector is US\$39.6 million or 6.9 percent of the total annual budget. This shows a 62.3 percent increase compared to the FY19/20 COVID-19 Recast Appropriation of US\$24.4 million. The biggest driver of this is the US\$29.0 million allocation for the Road Fund further discussed below, of which US\$3 million has also been allocated for the construction of the Junk River Bridge on the RIA Road Corridors.

Industry and Commerce: The amount of US\$7.6 million constituting 1.3 percent of total appropriation has been allocated for this sector for FY20/21. This shows a 1.3 percent increase in comparison with FY19/20 COVID-19 Recast appropriation of US\$7.5 million. A key deliverable in the sector is the delivery of a COVID-19 response program focused on supporting market and petty traders.

## 9. State-Owned Enterprises

In compliance with the Amended and Restated PFM Act of 2009, 16 SOEs operations are summarized in an annex which covers their previous fiscal period performance and revenue and expenditure estimates for the next fiscal year. A consolidated annual financial plan including revenue projection for the 16 State Owned Enterprises (SO Es) shows a total of US\$239.4, of which 9.1 percent would accrue to GOL dividends, 3.6 percent to other partners and 87.3 percent retained by SOEs. SOEs with the largest contributions of estimated operating revenue for the upcoming year include: LEC (29.3 percent), NPA (10.5 percent), NASSCORP (21.1 percent), LTA (7.9 percent), LiMA (9.3 percent) and LPRC (9.4 percent). Total estimated inflows are projected at US\$215.2 million, a 9 percent increase compared to the prior fiscal period. It should be noted that the revenue estimates could change should the rest of the SOEs submit their revenue estimates for the fiscal year 2020/21. Consolidated estimates of deposit into the Consolidated Fund is approximately US\$27.4 million, 80.0 percent of the estimates will accrue to GOL accounts while 20.1 percent will be in dividends for the coming fiscal year.

The sector may accrue a consolidated profit of approximately US\$1.6 million for the fiscal period 2020/21. However, except for LEC and LAA that are projecting losses, all other SOEs are projecting profits or breakeven for the upcoming fiscal year. It should be noted that total deposit to the Consolidated Fund is based on the SOEs estimates and not the Revenue Forecasting Unit at the MFDP. It is also important to note that the consolidated profits/losses could change if the rest of the SOEs submit their revenue and expenditure estimates for the fiscal year 2020/2
